Re: Longview Boulevard Paving Schedule:

Thank you for your patience as we have been installing sidewalks on Longview. As we begin paving, we are posting this letter to let you know how the process will affect you. Thursday, Friday and Monday will be congested with paving equipment and trucks, but essential traffic will get through with delays. We will begin at 7:30 each day, and finish by 5:00. If you can minimize coming and going during these hours it would be appreciated. The diagram below illustrates the plan for paving, subject to delays due to weather. In general, we will pave first on Essex, then on Longview. Trash and recycling will still be picked up before paving Thursday, 4/18. Please be sure your cans are at the curb by 6AM. Thanks again for your patience as we work towards the completion of this project.
