## NOTICE OF CONSTRUCTION

November 11, 2024

Dear resident,

The cities of Glendale and Kirkwood have selected Jokerst Paving to construct the proposed improvements to E. Essex Ave between Dickson Street in Kirkwood and N. Sappington Rd in Glendale. The improvements include concrete curbs and guttering along the north and south sides of the street, a concrete sidewalk along the north side of the street, retaining walls, and a new asphalt driving surface.

Construction is scheduled to begin Tuesday, December 10, 2024. Construction of curbing, sidewalks, and retaining walls will begin along the north side of the street progressing east towards N. Sappington Rd. Once the work has reached N. Sappington Rd, Jokerst crews will then begin work along the south side of the street at Dickson Street and again progress east to N. Sappington Rd. Paving of the road will be the last step in the project.

While the work is underway, E. Essex Ave will be temporarily converted to a one-way street allowing for westbound traffic. Eastbound traffic will be detoured at Dickson St southward to Lockwood Ave. In addition, there will be no change to your trash, recycling, and yard waste collection schedules.

Given adequate construction weather, this project is estimated to take 5-6 months to complete. Unfavorable weather conditions may extend the timeline estimate.

**Project inquiries should be directed to Jokerst Paving Project Manager Kieth Grass at 314-808-4763.** Residents can also reach out to their city staff representatives via the contact information below.
