

## Reliability

### Kirkwood Electric - Reliable Public Power Provider

Kirkwood Electric has been recognized by the American Public Power Association as a Reliable Public Power Provider. Kirkwood Electric has received this recognition since May 2011. Being recognized by the RP<sub>3</sub> program demonstrates our commitment to our employees, customers, and community. Additionally, the RP<sub>3</sub> designation is a sign of a utility's dedication to operating an efficient, safe, and reliable distribution system. Currently only 254 of the nation's more than 2,000 public power utilities hold an RP<sub>3</sub> designation. This recognizes our utility for providing its community with high quality, reliable, and safe electricity.
