Kirkwood Resident:

Pace Construction Company is under contract with the City of Kirkwood to resurface city streets and perform concrete improvements throughout Kirkwood. If you are receiving this letter, we are resurfacing the street or streets near your house.

We will be working on these streets periodically from August through October. The work hours for this construction will be 7 AM to 6 PM. “No Parking” signs will be placed along the streets we will be working on with dates that parking will be prohibited from 7 am to 6 pm. Before the signs are placed and after they are removed, street parking will be allowed as per local laws and regulations.

Unfortunately, as with any construction activity, there will be inconveniences that residents will be faced with. These inconveniences include no parking on streets and restricted traffic flow during hours of operation within the project limits. Traffic will be restricted to a minimum of one lane in each direction or will be rerouted along nearby streets during work hours, but all streets will be fully open to traffic at the end of each work day.

Please remind children that construction work zones are extremely dangerous and that playing around parked and especially moving equipment should be avoided at all times.

Thank you again for your patience and if you have any questions or concerns regarding the construction process you may contact Kevin Oberkirsch at our office at (314) 524-7223. If you have any questions directed towards the City of Kirkwood, you may contact the construction inspector, Dennis Smith at (618) 920-0150.
